

## GREAT EASTERN MAINLINE 'FREIGHTLINER' SCENARIO PACK

### HOW TO INSTALL

#### Installation instructions: -

- *Extract the Zipped folder named '[G.G.S.] GEML Freightliner Main/Free Scenario Pack.zip' to a safe location such as the desktop.*
- *Then find the .exe named 'G.G.S GEML FL Main/Free Scenario Pack.exe' and double click and then follow the instructions.*

#### **PLEASE NOTE: -**

This pack uses its own 'Tracks.bin' file and will overwrite your current one. It is strongly recommended that you back-up your current version first.

To do this, go to your Railworks folder, Content folder, 00000038-0000-0000-0000-000000002013 folder, Networks folder and right click on the file named 'Tracks.bin' and click copy. Then paste it somewhere you know you can find again later to replace this packs version.

## **SCENARIO NOTES**

- Although most services are based on true to life services, some are still fictional to add to the enjoyment of the scenario.
- Although saving often is always recommended, there is a high chance that when returning to a scenario from a save it will give erratic and false scenario behaviour. Therefore, it is actually recommended you DO NOT use SAVE > RESUME unless the scenario requires you to do so, in which case it will tell you.
- You should always exit TS before running another scenario.
- Although these scenarios may work in the 32bit version of TS, they are created for the 64bit.
- We can only use assets that are available therefore some trains may not be true to life 100%.

### Golden Goldsmith Studios

- Essential Extras

## IMPORTANT INFORMATION

‘Golden Goldsmith Studios’ scenarios try to recreate the feel of being a real train driver. You will likely be driving for certain companies and carry out their services and tasks.

Every train will be based on those areas real timetabled services if possible.

Every ‘Golden Goldsmith Studios’ scenario is designed for cab view unless stated otherwise.

***If you wish to have the scenario(s) function as it was designed to function then you MUST NOT do the following unless stated otherwise: -***

- *Click on ANY other Locomotive/Train.*
- *Change any points/switches.*
- *Hack/Mod/Alter the scenario.*
- *Swap any stock.*

*We hope you enjoy many hours of driving getting your complete money’s worth.*
